**"I had a great time this past weekend. Not only did I get to meet some incredible people, but I learned and experienced a lot about caverns. And to tell you the truth, it was the first-hand experience. Getting out into the field and seeing the caves first hand, has taught me more than any book could have. I am so grateful for taking on this adventure."**

**Cavern Studies Student**

**"Think Outside the Classroom"**

**No prerequisites and no caving experience required.**

**Dr. Stephen Vermette (Geography), Prof. Karen Wehn (Earth Sciences), and Dr. Katharina Dittmar (Biological Sciences).**
