

Embed Maps

on web page

Plan your web page

- ◇ Determine content
 - ◇ Two web maps
 - ◇ Text to explain web maps such as:
 - ◇ Background (news article.....)
 - ◇ Data sources
 - ◇ Methods used
 - ◇ Results
 - ◇ Possible images/charts to support map content

Add Boilerplate HTML stuff

```
<!DOCTYPE html>
<html lang="en-us">
  <head>
    <meta name="viewport" content="initial-scale=1.0">
    <meta charset="utf-8">
    <title>GEG 485/585 Embed Maps</title>
    <link rel="stylesheet" href="arcgisembedcss.css">
  </head>
  <body>
    <div>
      <h1>High-end Homes Mapping Example</h1>
```

Anything you want

Link to my css file

Anything you want

```
</div>
</body>
</html>
```

Use Notepad++. Save your file as embed.html.

If you do not want to have a separate css file, put your <style> information in the <head> section.

In Map View on ArcGIS Online, SHARE to Embed

You have to do this for each map that you intend to embed.

Share

Choose who can view this map.

Your map is currently shared with these people.

- Everyone (public)
- Buffalo State- Geography and Planning
- Members of these groups:
 - BSC Bike Survey
 - Buffalo Carshare
 - GEG 325 Team 10
 - GEG 485
 - GEG325 Team 1
 - GEG325 Team 2
 - GEG429 Spring15

```
<style>.embed-container {position: relative; padding-bottom: 80%; height: 0; max-width: 100%;}
.embed-container iframe, .embed-container object, .embed-container iframe{position: absolute;
top: 0; left: 0; width: 100%; height: 100%;} small{position: absolute; z-index: 40; bottom: 0;
margin-bottom: -15px;}</style><div class="embed-container"><iframe width="500" height="400"
frameborder="0" scrolling="no" marginheight="0" marginwidth="0" title="High-End Homes
(ACS18)"
src="//bscgeog.maps.arcgis.com/apps/Embed/index.html?webmap=a07afc9957734661b681f9f0
4a0a9e11&extent=-79.9166,42.1532,-
76.6812,43.3871&home=true&zoom=true&previewImage=false&scale=false&search=true&sear
chextent=true&details=true&legendlayers=true&active_panel=details&disable_scroll=false&the
me=light"></iframe></div>
```

Cut everything between `<style>``</style>`

- ◆ `<style>.embed-container {position: relative; padding-bottom: 80%; height: 0; max-width: 100%;} .embed-container iframe, .embed-container object, .embed-container iframe{position: absolute; top: 0; left: 0; width: 100%; height: 100%;} small{position: absolute; z-index: 40; bottom: 0; margin-bottom: -15px;}</style><div class="embed-container"><iframe width="500" height="400" frameborder="0" scrolling="no" marginheight="0" marginwidth="0" title="High-End Homes (ACS18)" src="//bscgeog.maps.arcgis.com/apps/Embed/index.html?webmap=a07afc9957734661b681f9f04a0a9e11&extent=-79.9166,42.1532,-76.6812,43.3871&home=true&zoom=true&previewImage=false&scale=false&search=true&searchextent=true&details=true&legendlayers=true&active_panel=details&disable_scroll=false&theme=light"></iframe></div>`
- ◆ **Put this into your .css file**

CSS file example

```
<style>.embed-container {position: relative; padding-bottom: 80%; height: 0; max-width: 100%;} .embed-container iframe, .embed-container object, .embed-container iframe{position: absolute; top: 0; left: 0; width: 100%; height: 100%;} small{position: absolute; z-index: 40; bottom: 0; margin-bottom: 15px;}</style>
```

REMEMBER in a CSS file you do not need the `<style>` tags but in the `<head >` section you do!

```
.embed-container {  
  position: relative;  
  padding-bottom: 80%;  
  height: 0;  
  max-width: 100%;  
}  
.embed-container iframe,  
.embed-container object,  
.embed-container iframe{  
  position: absolute;  
  top: 0;  
  left: 0;  
  width: 90%;  
  height: 90%;  
}  
small{  
  position: absolute;  
  z-index: 40;  
  bottom: 0;  
  margin-bottom: -15px;  
}
```

Put into your html
between
<body></body>
tags.

```
<div class="embed-container"><iframe width="500" height="400" frameborder="0"  
scrolling="no" marginheight="0" marginwidth="0" title="High-End Homes  
(ACS18)"  
src="//bscgeog.maps.arcgis.com/apps/Embed/index.html?webmap=a07afc995773  
4661b681f9f04a0a9e11&extent=-79.9166,42.1532,-  
76.6812,43.3871&home=true&zoom=true&previewImage=false&scale=false&sear  
ch=true&searchextent=true&details=true&legendlayers=true&active_panel=details  
&disable_scroll=false&theme=light"></iframe></div>
```

```
<div class="row">  
  <div class="col-md-12">  
    <p>PUT SOME STUFF HERE ABOUT FIRST MAP</p>  
    <div class="embed-container">  
      <iframe width="500" height="400" frameborder="4" scrolling="no" marginheight="0" marginwidth="0">  
    </div>  
  </div>  
</div>
```

Change src tag

```
<div class="embed-container">
```

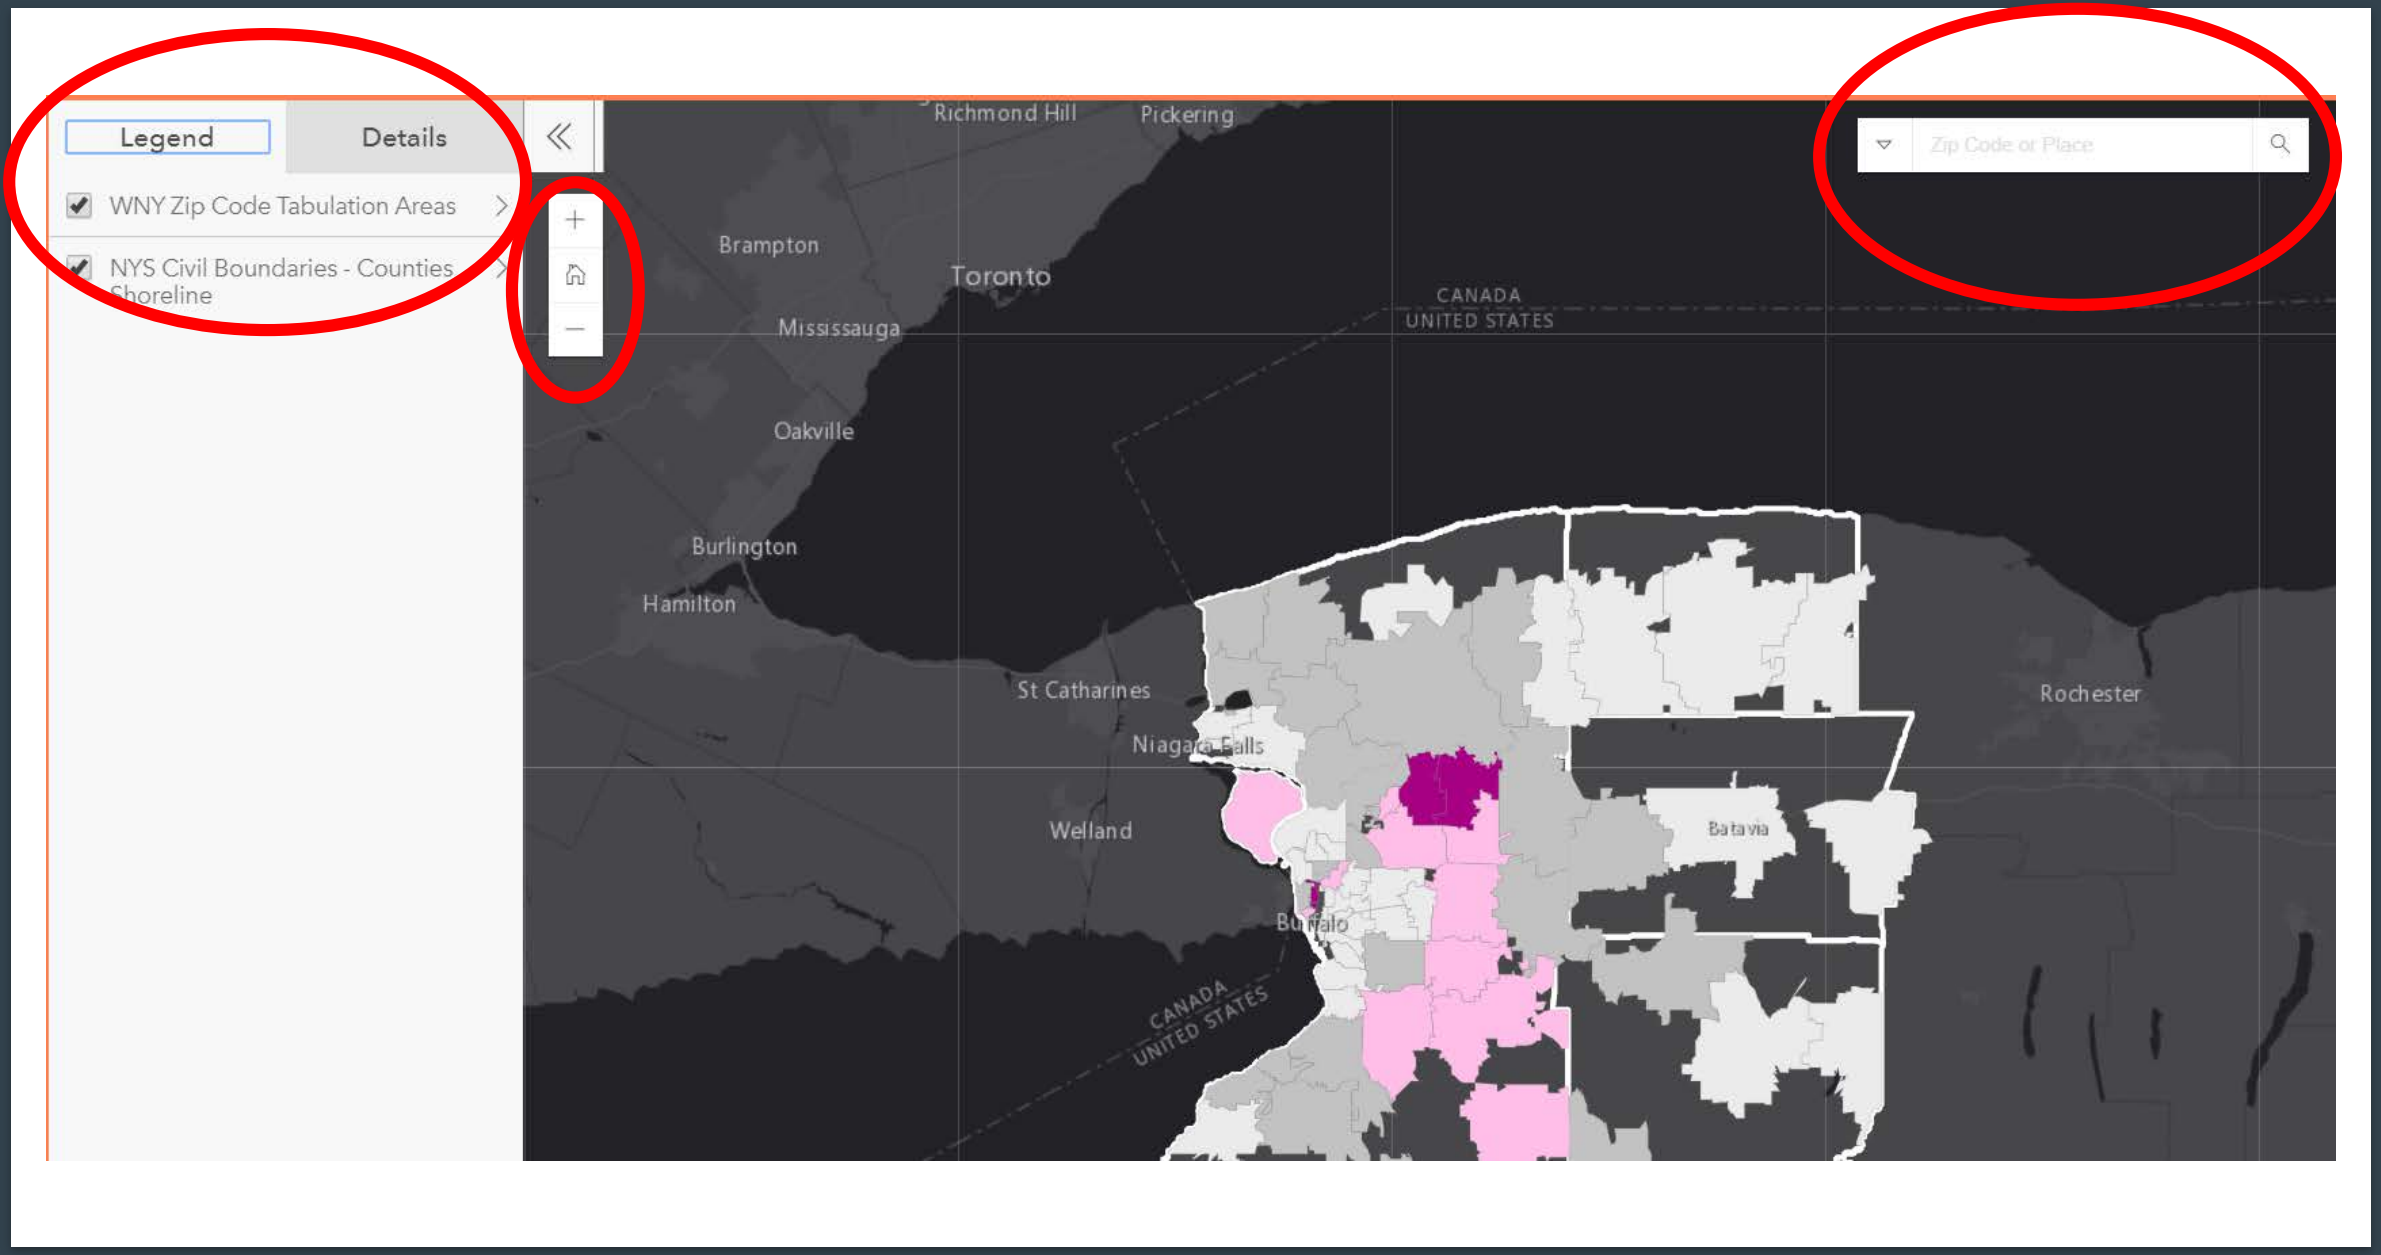

```
<iframe width="500" height="400" frameborder="0" scrolling="no" marginheight="0" marginwidth="0" title="High-End Homes (ACS18)"
```

```
src="//bscgeog.maps.arcgis.com/apps/Embed/index.html?webmap=a07afc9957734661b681f9f04a0a9e11&extent=-79.9166,42.1532,-76.6812,43.3871&home=true&zoom=true&previewImage=false&scale=false&search=true&searchextent=true&details=true&legendlayers=true&active_panel=legend&disable_scroll=false&theme=light"></iframe>
```

```
</div>
```

Zip Code or Place

Legend Details

HighEndHomes_ACS18

This map shows the zip codes in western New York counties by the percent of owner occupied homes in each zip code that are considered high-end.

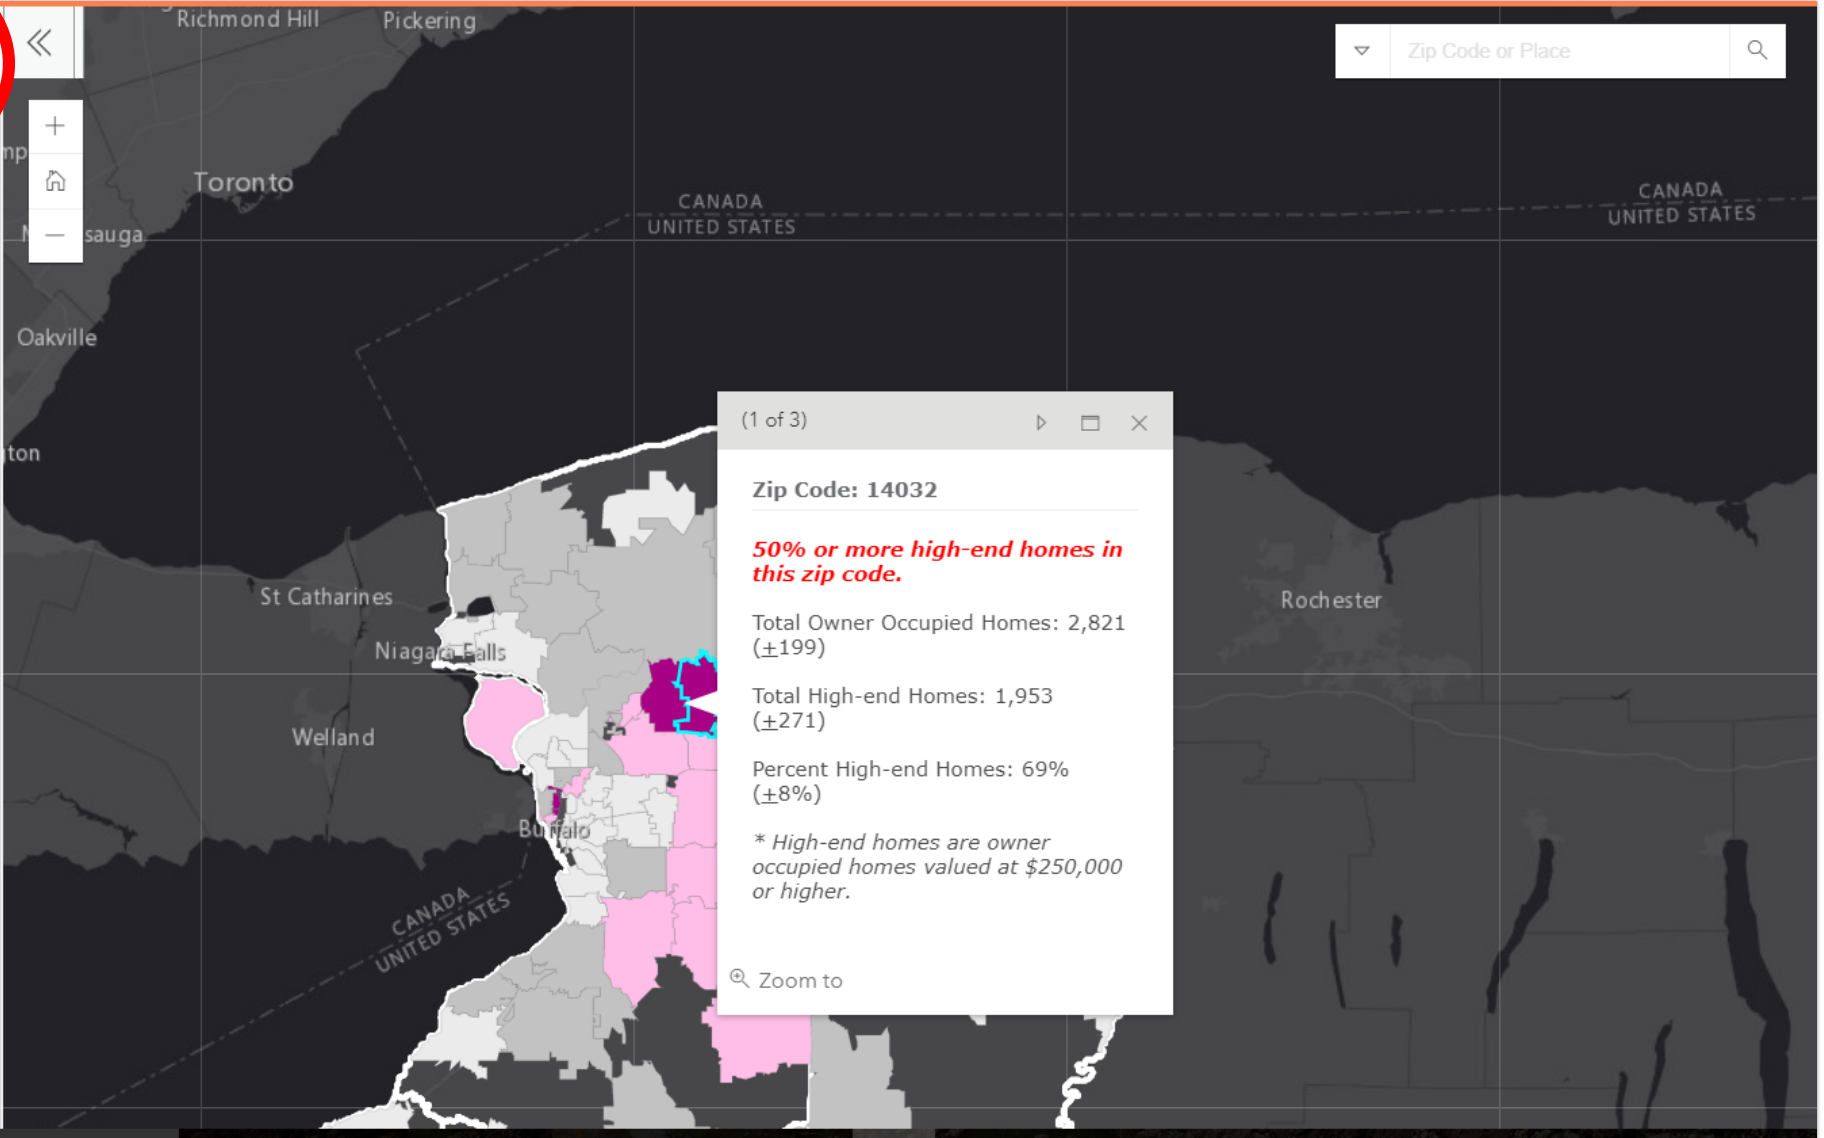

A recent article, "Most of the homes in three local ZIPs are worth more than \$250,000; check out the full rundown of WNY's high-end housing" in Bizjournals By G. Scott Thomas - Projects Editor, Buffalo Business First, Jan 28, 2019, 9:09am EST, [needs a map](#). The link to the article is:

<https://www.bizjournals.com/buffalo/news/end-homes.html>

Data Needs (from article):

- presented by zip code in western New York that contain a minimum of 1,000 owner occupied homes.
- "Western New York includes Allegany, Cattaraugus, Chautauqua, Erie, Genesee, Niagara, Orleans and Wyoming counties."
- Total Owner Occupied homes (count) within each zip code, and
- Total OOH Valued at \$250,000 or higher (count) within each zip code are needed to calculate
- the share of OOH (percentage, proportion) at \$250,000 or higher (real number/percentage) within each zip code.

Data were obtained from the Census

- the share of OOH (percentage, proportion) at \$250,000 or higher (real number/percentage) within each zip code.

Data were obtained from the Census American Community Survey (ACS) 2018, 5 yr estimates, detailed table B25075 for zip code tabulation areas (ZCTA). The

Things to Do

- ◆ Make sure you edit the details section for each map if you are going to include the Details Pane in your embedded map.
- ◆ You can always allow the ESRI address search BUT if you want users to search your specific layers you must make them searchable. (SEE NEXT SLIDE)
- ◆ Every visible layer will have a pop-up unless you disable it!
- ◆ Configure your pop-ups in ArcGIS Online.
- ◆ You can always edit the html. If you change a layer name or the map name, etc. Save and regenerate the html for embedding.
- ◆ This process involves a lot of back and forth between ArcGIS online and Notepad++ - be patient while trying to achieve the look and feel that you want for your sight.

Click on Settings in the Overview Window

❖ Scroll down to application details. Add layers to search.
